BUILDING SAFETY MONTH – MAY 2022

WHEREAS, our confidence in the structural integrity of these buildings that make up our community is achieved through the devotion of vigilant guardians, building safety and fire prevention officials, architects, engineers, builders, tradespeople, design professionals, laborers and others in the construction industry who work year-round to ensure the safe construction of buildings; and

WHEREAS, these guardians are dedicated members of the International Code Council, a U.S. based organization, that brings together local, state and federal officials that are experts in the built environment to create and implement the highest quality codes to protect us in the buildings where we live, learn, work, worship, play; and

WHEREAS, these modern building codes include safeguards to protect the public from hazards such as hurricanes, snowstorms, tornadoes, wildland fires, floods and earthquakes; and

WHEREAS, Building Safety Month is sponsored by the International Code Council to remind the public about the critical role of our communities' largely unknown protectors of public safety – our local code officials – who assure us of safe, sustainable and affordable buildings that are essential to our prosperity; and

WHEREAS, "Safety for All: Building Codes in Action", the theme for Building Safety Month 2022, encourages us all to raise awareness about planning for safe and sustainable construction; career opportunities in building safety; understanding disaster mitigation, energy conservation; and creating a safe and abundant water supply to all of our benefit; and

WHEREAS, each year in observance of Building Safety Month, people all over the world are asked to consider the commitment to improve building safety, resilience and economic investment at home and in the community, and to acknowledge the essential service provided to all of us by local and state building departments, fire prevention bureaus and federal agencies in protecting lives and property.
