Belmar Secures Grant to Complete Lake Como Project

Monmouth County has awarded the Borough of Belmar \$200,000 to complete the Lake Como project, allowing the path around the lake to be completed and a new fountain installed.

“We hear from residents all the time about this project, particularly those living in the south end of Belmar,” said Councilwoman Caitlin Donovan. “We are thrilled to deliver this good news to them.”

The path currently circles the lake, encompassing Lake Como and Spring Lake, but stopping at the Belmar border. The project will use the same materials for a continuous experience for those enjoying the lake.

A new fountain will also be installed, which will contribute to both the water quality and overall aesthetics of the lake.

Frost Cycle Opens on 9th Ave

Belmar welcomed its first full cycle studio, Frost Cycle, in a ribbon-cutting ceremony.

The studio, located at 900 Main St, Suite B, boasts a full body workout that focuses on both body and mind.

“You’ll notice our instructors cueing differently than most, focusing on form and how to achieve true mind body connection,” said Tara Frost, who co-founded the studio with her sister, Heather Frost. “Our signature sculpting on the bike is designed to transform your body and mind.”

Belmar Honors Veterans

Belmar will honor veterans this year on Veterans Day, November 10, at 9:30 am. The ceremony will take place at Monument Row between 12th and 13th Avenues.

This year, Belmar unveiled a new banner program. Belmar’s Main Street will soon be adorned with Veterans Banners to honor our local heroes. These banners stand as a powerful symbol of the Borough’s respect and appreciation for the brave men and women who have selflessly served our nation. Their sacrifices and dedication will never be forgotten.

“We hope it encourages everyone to reflect on the incredible contributions our veterans have made to our nation's security and prosperity,” said Councilwoman Maria Rondinaro, who started the program.

The banners will be displayed in time for Veterans Day 2023. We encourage everyone to take a stroll through our town and see the banners up close.
